Objective

Final-year B Tech student in Artificial Intelligence and Data Science with a strong foundation in full-stack web development and machine learning. Passionate about solving real-world problems through scalable AI-driven solutions. Seeking a role to apply my skills in Python, MERN stack, and deep learning to build impactful software products while continuously growing in a collaborative, tech-forward environment.

Education

Ramachandra College of Engineering, Eluru (JNTUK)   **2022 − 2026**
B.Tech in Artificial Intelligence and Data Science   *Percentage: 70 (Pursuing)*

Technical Skills

Languages/Database: Python, Java, C, JavaScript, SQL, R, HTML/CSS

Web Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs

Software & Tools: Git & GitHub, Postman, Netlify, Render, MongoDB Atlas, VS Code

ML/DL Frameworks: TensorFlow, Scikit-learn, Flask, OpenCV

Internships

AIML Intern – Smart Sorting Project   **May 2025 – June 2025**
SmartBridge (Online)
– Designed CNN-based model to classify and sort everyday objects using Flask.

ML & Data Science Intern   **May 2024 – June 2024**
Blackbucks (Online)
– Built ML pipelines using Pandas, Scikit-learn, Matplotlib.
– Worked on mini-projects, model evaluation and tuning.

Projects

Career Path Recommendation System — *Python, ML, Streamlit*   **2025**
– Suggested career paths based on user input via Streamlit interface.

Resume Builder Web App — *MERN Stack, OAuth, MongoDB*   **2025**
– Built an interactive resume builder with ATS scoring and export features.

AI Chatbot — *React.js, OpenAI API, Vite*   **2025**
– Developed real-time chatbot using OpenAI API and Tailwind UI.

Fake News Detector — *NLP, Scikit-learn, Python*   **2024**
– Implemented logistic regression model with TF-IDF to detect fake news.

Portfolio Website — *React.js, HTML/CSS*   **2025**
– Created a responsive web portfolio to showcase skills and projects.

Certifications

Infosys Springboard: Java, Python, R, React, MERN Stack, Django, Flask, ServiceNow, Machine Learning, Cloud, MySQL
Simplilearn: HTML, CSS, AWS Cloud Fundamentals
Coursera: Python, C Programming

Workshops & Hackathons

- 24-Hour Hackathon – Brainovision, RCE Eluru (2025): Built a second-hand electronics web app.
- ML with Python, Deep Learning with TensorFlow, Mobile App Development, Full Stack Web Development (2023)

Hobbies & Extra-Curricular Activities

Enjoy building web and AI projects, reading tech blogs, playing cricket and chess. Participated in national-level hackathons and certified workshops on Deep Learning , Web Development , and Machine Learning.
